

## **Petsecure Pet Health Insurance:** **Like Having Group Benefits For Your Pet**

If you're one of the many Canadians who consider your pets to be part of the family, then Petsecure is for you. Now, through an Engineers Canada sponsored program, you and your pets can benefit from this unique coverage and SAVE on your monthly premiums!

Petsecure is pet health insurance for your dog or cat, and peace of mind for your family. Your pet is covered for up to 80% of the cost of veterinary bills for accident and illness, including x-rays, hospitalization, surgery, and prescriptions. There are 4 levels of comprehensive Petsecure coverage, which include dental care, alternative treatments, behavioural therapy and medical devices, plus our exclusive **Secure For Life™ Guarantee**. Secure 4, our highest level of coverage also includes preventive care.

For Andrea Mason, the proud pet parent of Pita, a border collie in Halifax, Nova Scotia, Petsecure was truly a life saver. "Pita was sick, and wouldn't even look at a tennis ball. At the vet's they felt a lump in her intestine. An X-ray revealed a blockage, and she needed immediate surgery."

As pet parents, we all believe we'll be able to protect our pets. No matter how much love and care you provide, accidents, and especially illness, are beyond your control. "Pita's surgery and hospital stay cost about \$1,350. We received our cheque two weeks to the day from the time it was submitted" says Mason.

Petsecure is a unique way to ensure that throughout your pet's life, whenever you need to, you can provide them with the very best of care. So that when the unexpected happens – and it does – you're free to make the health care decisions that feel right for you and your pet. It also provides greater access to life-saving treatments, so that crucial decisions are easier to make.

Is Petsecure right for you and your pets?
