Edmonton Branch
Shiraz Kanji, P.Eng.
Chair

BRANCH ACTIVITY REPORT, April, 2006

BRANCH ACTIVITIES

- February 28, 2006 – We had the President's Visit and the Branch AGM. The luncheon was very well attended – with 130 attendees. The VIP guests included members from all three levels of government, the new police chief and representatives from the business and academic communities. Branch elections were held during the AGM and a new executive was elected with Shiraz Kanji as the Chair.
- March 21 – Brad Griffith gave an update to an audience of 100 on the South LRT Extension Project in Edmonton. As with most project-type luncheon talks, this was very well received.
- The Edmonton Branch launched the luncheon sponsorship programme and our first sponsor was Stantec for the March 21 luncheon.

UPCOMING EVENTS

Upcoming events planned for April and May 2006 are as follows:

- April 11, 2006 – Hamish Moir and Chad Musselwhite will speak on Geothermal Ground Source Technology
- May 16, 2006 – The luncheon topic will be Risk Management.

BRANCH BUDGET

The Branch is financially sound.
