## **BRANCH ACTIVITY REPORT TO COUNCIL, February, 2005**

---

### **BRANCH ACTIVITIES**

- A Branch Executive meeting was held in Lloydminster on November 29, 2005.
- There were no student awards distributed since the last activity report. Awards distribution is expected to commence in the spring of 2005.
- Regretfully, Tim Benko, P.Eng resigned from the Branch Executive as he is moving to Calgary to pursue a career opportunity. He will be missed, and we wish him luck and success in his future endeavours.

### **BRANCH BUDGET**

- The Branch is financially sound.

### **UPCOMING EVENTS**

- We will be holding our AGM in conjunction with the President's Annual Visit on Wednesday, March 16, 2005. The President and entourage may stop in Vegreville to have lunch with interested members in the area.
- Our branch is planning on holding a Science Olympics or Outreach Science Night for National Engineering & Geoscience Week. This particular week may not be a good time, as it is the Spring Break week for the School Districts in the Lloydminster area, so an alternate date may be chosen.
- There will be a Branch Executive meeting held in Lloydminster on January 24, 2005.
