

APEGGA/ASET Joint Board of Examiners for Professional Technologists Volunteer Positions Available

Are you a seasoned Professional Engineer or Geoscientist with ten or more years of industry experience seeking an opportunity to advance the profession by sharing your knowledge and experience?

APEGGA is looking for Professional Engineers and Geoscientists to fill volunteer positions in the newly created APEGGA/ASET Joint Board of Examiners (“JBOE”) arising under legislative changes to the EGGP Act and Regulations creating the new Professional Technologist (“P.Tech.”) designation.

As the name suggests, the JBOE is a joint APEGGA and ASET committee and will be composed of an equal number of ASET and APEGGA members. The mandate of the JBOE is to evaluate the qualifications of individuals for licensure as Professional Technologists. This will include specifying the scope of practice that is the routine application of industry recognized codes, standards, procedures and practices using established engineering or applied science principles and methods of problem solving.
