Local Teacher Receives Award for Making School Cool

Fort McMurray – Daron Dix, a junior high science teacher at St. Gabriel School, is one of 20 teachers across the province to be presented with a 2010 Teacher Award sponsored by The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA). At a surprise presentation, Dix will receive a cheque for \$2,000 to be used to promote science and math education in the school.

Location: St. Gabriel School
595 Signal Road
Fort McMurray, AB
Date: Thursday, May 27, 2010
Time: 12:45 p.m.

“Ms. Dix makes it her mission to be a role model for science. She works hard to deliver lessons using technology and hands-on opportunities,” writes a colleague. “Part of her appeal to students is her highly contagious positive attitude. Her love of school has been passed on to her students as they rarely want to miss an opportunity to be in her class,” writes another colleague.

The APEGGA Teacher Awards program celebrates math and science teachers in elementary, junior and senior high schools for the excellence they demonstrate in shaping the intellectual and creative development of students and for their outstanding efforts to *Make School Cool*.

“APEGGA and its Members recognize the vital role teachers play in sparking interest in science and math at a young age,” says APEGGA President Kim Farwell, P.Eng., MBA. “To encourage math and science teachers in shaping the intellectual and creative development of students, we increased the number of Teacher Awards recipients from 16 to 20.”

Established in 1920, APEGGA is responsible for regulating the practices of engineering, geology and geophysics in the province of Alberta. The association’s over 57,000 members play a significant role in every segment of the economy, and their technical and management expertise ensure Alberta remains at the forefront of technological innovation.
