Engineering and Geoscience Excellence Recognized with APEGGA Summit Awards®

Edmonton – Hundreds of individuals in the engineering and geoscience communities honoured their peers at the 2011 Summit Awards® Gala, Thursday, April 14th at the Calgary TELUS Convention Centre. The event, hosted by The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA), acknowledges outstanding individuals for their accomplishments in engineering, geology and geophysics.

Now in its 21st year, the Summit Awards® recognize excellence across a broad range of engineering and geoscience endeavors and salute the efforts of these professionals as they work to ensure public safety and well-being. Summit Award® recipients are leaders who have a significant positive impact upon Alberta.

Nine awards were presented this year celebrating environmental sustainability, community service, mentorship, early accomplishment, technical and educational achievement, service to the professions, distinguished service to the association and superior leadership.

APEGGA is responsible for regulating the practices of engineering and geoscience in the province of Alberta. The association's more than 60,000 members play a significant role in every segment of the economy, and their technical and management expertise ensure Alberta remains at the forefront of technological innovation.
