## **BRANCH ACTIVITY REPORT, June 2007**

---

### **BRANCH ACTIVITIES**

The Central Alberta Branch held two Executive Meeting since the last report. The next Executive Meeting is scheduled for August / September 2007.

#### **Glenco CO2 Plant Report:**

The tour of the Glenco CO2 Facility presentation was outstanding success. This event was coordinated by Morris Sych, P.Eng. who have an extensive background in primary, secondary, and tertiary recovery experience. The discussion was very informative.

#### **Red Deer Regional Airport Tour:**

The Red Deer Regional Airport is the key aviation facility in Central Alberta. It also serves as a secondary airport for planes diverted from Edmonton or Calgary airports. The airport authority provided an excellent presentation for the tour. Special thanks goes to Mr. Bruce Thorne. Beside a tour of the Airport operational and maintenance facilities, a tour / presentation of Once Sky Wings Aviation Academy, Mustang Helicopters, and Air Spray Ltd. was also provided.

#### **10th Central Alberta Professional Development Day:**

The 10<sup>th</sup> Annual Central Alberta Professional Development was held at Red Deer College. There were 35 APEGGA members that attended the event. Feedback from members was excellent specially regarding the presentation topics – such as Water and the Energy Industries, Coaching Skills, Energy Efficient House and Building, etc.

### **BRANCH BUDGET**

The Branch is financially sound.

### **UPCOMING EVENTS**

*Future Event Possibilities:*

- Branch Golf Event
