

New Information About APEGGA Education Foundation Scholarships.

For the past ten years the APEGGA Education Foundation has been providing scholarships to students who are interested in pursuing a post-secondary education in the fields of Engineering, Geology or Geophysics.

In the fall of 2008, The APEGGA Education Foundation reorganized its scholarship portfolio in light of two \$500,000 endowments that were made to the University of Calgary and the University of Alberta. The Foundation has retired the University Entrance, University Transfer, Centennial and Education scholarships. For more information about the scholarships mentioned above please contact the University of Calgary and/or University of Alberta or visit their websites.

The APEGGA Millennium/Dr. Norman Wagner, OC Scholarship will remain under the administration of the Foundation. While the Millennium/Dr. Norman Wagner, OC scholarships were originally set at a maximum of six (6) scholarships valued at \$2,000 each, we will now be giving away ten (10) scholarships valued at \$3,500 each. These will be dispersed to children of APEGGA members who are enrolled in any field of study at any post-secondary institution across Canada.

The APEGGA Education Foundation website will provide you with more information on how to access the application form for the Millennium/Dr. Norman Wagner, OC Scholarship.
