

Leading a Canadian Future

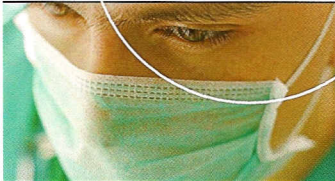

The New Engineer in Society

■ Engineers Canada, the Association of Canadian Engineering Companies, the Engineering Institute of Canada, the Canadian Academy of Engineering, the Canadian Federation of Engineering Students, and the National Council of Deans of Engineering and Applied Science will host Canada's first national engineering summit at the Fairmont Queen Elizabeth Hotel in Montréal from May 19 to 21, 2009.

Participants from the health, environment, infrastructure and industrial sectors as well as academia will have the opportunity to identify, with the engineering profession, steps to affect positive change for a healthier, cleaner, safer, more competitive and sustainable Canada in a global society.

Keynote addresses will feature such renowned speakers as *Richard Worzel*, Canada's leading futurist, *David Butler-Jones*, our Chief Public Health Officer from the Public Health Agency of Canada, *Allan Gregg*, critically acclaimed and respected senior research professional and social commentator, *Jean Lemire*, renegade biologist turned filmmaker and *Thomas d'Aquino*, lawyer, entrepreneur, author, educator, and strategist. In addition, programming will offer a variety of concurrent topics tackling such issues as health, the environment, safety and security, global competitiveness and quality of life.
